## LENTZ POST IS 2ND LARGEST IN 22ND DISTRICT

Gettysburg's Albert J. Lentz post of the American Legion ranks second in membership in the 22nd district, according to reports presented Friday evening at a special meeting of the district Legion organization in the Lentz post home on Baltimore street.

York was reported as having the highest membership, 2,000, and the Lentz post with 1,017 was next. Hanover is third with 955. The Littlestown post has 151 members and Biglerville has 121, according to the reports. Gettysburg's Dorsey-Stanton post was listed as having 49 members.

The special meeting was called at the instance of the national commander to study means of increasing memberships. With a quota of 14,353, the district which embraces York, Adams and Franklin counties has a total of 8,995 at the present time. Officials said that figure was about 4,000 less than at this time last year.

### Three Exceed Quota

Only three posts in the district, Gettysburg's Dorsey-Stanton, Dry Run and St. Thomas have gone "over the top" in their drives.

While Lentz post held second place in the unofficial results, it was in fourth place earlier this month. Since that time the local post has added about 50 to its paid-up membership.

The district is fourth in the state in membership, according to an announcement by District Commander Herbert Smith, Red Lion, who presided.

The national Legion commander, James O'Neill, will be at York on April 30 to meet with Legionnaires from this section, it was reported.

A majority of the posts in the district are participating in the Legion essay contest to be held in high schools in the three counties, the reports showed.

Next meeting of the district will be held March 23 at Red Lion. One hundred and twenty-five attended Friday's session.

## BLACK WALNUT FUND CAMPAIGN OPENS THURSDAY

Black Walnut district of the Boy Scouts of America will open its annual campaign for funds with which to operate during the coming year next Thursday evening at 6:30 o'clock at a dinner meeting of more than 50 scouts at the Hotel Gettysburg.

The campaign for \$2,500 is to be completed by March 2 under the leadership of District Attorney Daniel E. Teeter, finance chairman for the Black Walnut district.

Scouts and campaign captains and solicitors from all parts of the district are expected to attend the Thursday meeting and hear Chairman Teeter and David M. Dickson, new district field executive for the scouts, outline campaign plans and tell of scouting plans for the district in 1948.

### Seek 125 New Scouts

Mr. Dickson said today that the Black Walnut district has been given a quota of 125 new cubs and Boy Scouts in meeting the York-Adams area goal of 1,000 new scouts this year. The area slogan is "open the door for 1,000 more." The district now has 158 scouts and aims at increasing that number to 220 this year. The goal for cub enrollment is 80, Mr. Dickson said.

District leadership is to be augmented by building a staff of neighborhood commissioners. Mr. Dickson has announced, and leadership training program is being completed.

The new area Boy Scout camp near Dillsburg will go into full operation for the first time this year. The camping period will extend from June 27 to August 8.

Black Walnut Scout district serves the towns of Gettysburg, Fairfield, Orrtanna, Cashtown, Arendtsville, Biglerville, Bendersville, Idaville, Heidlersburg, Hunterstown and Mummaburg with Scout Troop 70 in Arendtsville serving 14 Scouts; Troop 71, Biglerville, 15 Scouts; Troop 72, Bendersville, 21 Scouts; Troop 77, Mummaburg, serving nine Scouts; Troop 88, Orrtanna, 12 Scouts; and in Gettysburg Troop 16 of Christ Lutheran and First Methodist churches, 26 Scouts; Troop 78 of Xavier Catholic church, 27 Scouts; Troop 79, St. James Lutheran church, 18 Scouts; Troop 80 of A.M.E. Kline had roomed at Mrs. Shultz' home, according to the information, and she charged him with taking \$80 from her pocketbook. Friday night she said the amount was \$30. Kline was arrested Friday morning in York.

## Warmer Weather Due In Some Areas

Chicago, Feb. 21 (P)—Winter's latest cold snap chilled residents from east of the Rockies to the Atlantic seaboard today—but warmer weather was on the way for some sections. "Today's lowest temperatures hit sections of the north central region and parts of New England. Readings also were below seasonal levels in other areas, except in Florida."

The mercury touched 20 below in North Dakota and Wisconsin and was around 15 below in parts of Minnesota and lower Michigan. It was near zero and slightly below in northern New England.

However, temperatures were expected to moderate today over most of the cold regions and a rising trend was indicated for most of the midwest over the week-end.

## FEBRUARY 29 IS RED CROSS DRIVE SUNDAY

Letters were sent out Friday by the Adams County Red Cross asking ministers and priests in the county to set aside February 29 as "Red Cross" Sunday opening the month-long finance drive to be conducted by the county chapter starting March 1.

Final arrangements for the campaign to raise \$14,820 during March were being completed today. Letters containing a synopsis of the work performed by the county chapter were being out to all district chairmen for distribution to the more than 300 solicitors who are scheduled to start the house-to-house campaign on March 1.

Attorney Donald M. Swope, chairman of the finance drive, today urged all solicitors to seek to have their work finished by March 15, with the Red Cross hoping to have secured the majority of the amount by that date.

### Disaster Costs Up

The goal of the drive this year is larger than last, it was pointed out, because of the tremendous demands made last year on the disaster relief part of the Red Cross in which more than \$11,000,000 was spent. The budget for the year had been \$2,000,000. In addition to the large demands last year, floods this year have already begun to cause larger outlays than usual for disaster relief, it was stated.

In the letter outlining the work of the county Red Cross last year, it is pointed out that 520 garments were made for women and children overseas; 329 articles were knitted. Home service was given to 853 veterans and 203 servicemen and financial assistance and other services under that heading totalled \$3,978.55. Classes in home nursing were held in four county high schools and 67 girls received certificates. Swimming instruction was given 400 children and a cooperative nutrition program was held with the schools.

A senatorial scholarship, which will provide tuition for four years at one of four schools, will be the top prize. Second prize will be \$25, third prize \$15 and the fourth, \$10, the group decided. The scholarship is being made available through Senator Paul Crider and the posts are donating the cash prizes. The four institutions from which the winner of the contest can choose are the University of Pittsburgh, University of Pennsylvania, Penn State and Temple.

## PRESENT GIFT TO COLLEGE

Dr. Henry W. A. Hanson, president of Gettysburg college, Friday night was presented with a gift for the purchase of candelabra for the college's proposed chapel by the Temple Brotherhood of Reform Temple Obey Shalom, Harrisburg.

H. Albert Lehman, president of the Brotherhood, presented the gift at Temple services, at which Doctor Hanson was guest speaker. The presentation was made in honor of the rabbi, Dr. Philip David Bookstaber, who during the war served as chaplain for those of the Jewish faith in the Air Corps groups at Gettysburg.

Doctor Hanson declared that "when during this holy season, whether it be Passover or Lent, we shall find together a common God, the whole world will find its best days."

"The great problem of the time of year," said the educator, "is where to get the power we need individually to make a better world."

"The great evil in the world today is mole-mindedness," said Doctor Hanson. "If people who believe in God are not blind, but do something about it, this twilight could precede a great day."

## THREE LEGION POSTS SPONSOR ESSAY CONTEST

Plans for an essay writing contest for high school seniors to be sponsored by American Legion posts in Gettysburg, Littlestown and Biglerville were outlined Friday evening at a meeting of a joint committee from the three posts held in the office of the county superintendent of schools.

A senatorial scholarship, which will provide tuition for four years at one of four schools, will be the top prize. Second prize will be \$25, third prize \$15 and the fourth, \$10, the group decided. The scholarship is being made available through Senator Paul Crider and the posts are donating the cash prizes. The four institutions from which the winner of the contest can choose are the University of Pittsburgh, University of Pennsylvania, Penn State and Temple.

"Will Democracy Survive?" was selected as the title for the essays to be written by seniors in the county high schools. Competitions are to be completed by March 16 and the winners will meet March 24 at a central location to write their essays for the county contest. Three judges will then study the essays in the county competition for a period of three weeks before announcing their final decisions. Each one of the sponsoring Legion posts is to select a judge.

The awards will be presented to the winners at an Americanism program to be held jointly by the sponsoring posts, probably at the high school of the student winning the top prize, it was decided.

The essays will be judged on points, to be given for English, originality of thought, structure, and evidence of research. The county superintendent of schools office is scheduled to send out a letter to all schools next week announcing details of the contest.

Assistant County Superintendent of Schools Charles I. Raffensperger is scheduled to visit all of the high schools to urge participation in the contest and members of American Legion committees in the various Legion posts will also work to stimulate interest in the event.

## Littlestown 138 MASONS AT 42ND ANNUAL DINNER FRIDAY

One hundred thirty-eight Masons, their wives and guests from Littlestown, Silver Run and Union Mills attended the 42nd annual banquet of Masons in Redeemer's Reformed church, Littlestown, on Friday evening. A turkey dinner was served by the Hustler's class of the church. The tables were decorated with red, white and blue candles and potted plants as centerpieces. The speaker's table was decorated with candles and a bouquet of daffodils, snapdragons and iris.

The Rev. John C. Brumbach, pastor of Christ Reformed church, served as toastmaster. The program opened with the pledge to the flag, the national anthem and the invocation by the Rev. David S. Kammerer, pastor of St. Paul's Lutheran church. Dinner music was furnished by Richard Willet, Hanover, on the vibro-harp. Group singing was led by the Rev. Mr. Kammerer, accompanied by Mrs. Samuel H. Higginbotham. Several vocal selections were rendered by the Young trio of Uniontown, Md. The trio consisted of Misses Betty and Ruby Young and their brother, Stewart, accompanied by Miss Frances Brown.

The speaker for the evening was Dr. Clyde A. Lynch, Anville, president of Lebanon Valley college, a grand chaplain of Masons of Pennsylvania and also a thirty-third degree Mason. His subject was, "An Idea Whose Time Has Come." He said: "There have been two conflicting ideas in the world today. The first is that the world must be conquered and ruled by physical force leading to destruction as evidenced by the atomic bomb. The other is that the world must be conquered and ruled by love and truth which leads to brotherhood. It is the task of education to create a world mind, but a world conscience is needed. Religion must create within the hearts of mankind a desire for brotherhood so that atomic energy instead of resulting in our collective destruction shall be used to heal our diseases and turn the wheels of industry and transportation and provide us with luxuries far in excess of what we now enjoy. Masons are called upon to help build this world brotherhood."

The flowers used to decorate the speaker's table were sent to Stanley M. Staub following the banquet. Mr. Staub is an active Mason and now confined to his home by illness. The banquet closed with the singing of "Blest Be the Tie that Binds" and the benediction by the Rev. Mr. Kammerer. The committee who arranged for this banquet consisted of Samuel H. Higginbotham and the Rev. John C. Brumbach, Littlestown and E. Roy Kindig of Union Mills. The committee selected to arrange for the 1949 banquet consisted of Luther D. Snyder and Holman L. Sell, Littlestown and Weldon Nussbaum, Union Mills.

## Here And There News Collected At Random

The 2nd Battalion, 315th Infantry, Organized Reserve Corps, has opened offices in Room 202, First National Bank building. It will be used by Company E, 315th Infantry, Gettysburg, commanded by Captain Donald C. Sheely and the Gettysburg Section of the 839th Composite Group, Colonel Leroy V. Greene, Harrisburg, well known in Gettysburg, commands the 2nd Battalion.

Those interested in the Organized Reserve Corps activities are invited to attend meetings of Company E the third Friday of each month at 8 o'clock.

The March issue of "The Spinning Wheel," Taneytown, contains the following interesting piece on George Washington.

"Taneytown boasts that it is the only town in Carroll county, Md., to have given George and Martha Washington overnight entertainment. They stopped at the Adam Good Tavern, Washington, supposedly on his way northward for some military purpose, and being detained by rain and muddy roads, arrived in Taneytown late in the day."

"An old legend has been handed down which tells us that the tavern sign was not painted very neatly and the 'A' in Adam was separated from the 'dam.' Because the sign was old and weatherbeaten the capital 'A' was scarcely visible."

"The story goes that on entering the town Washington looked up and read 'dam Good entertainment for man and beast.' It is told that he smiled and said 'it should be a good place to stay for the night.'"

"It is reported that Washington traveled in state as befitted his rank. His chariot was drawn by four horses. There was a light wagon for baggage which required two draught horses. He had four saddle horses and a fifth was led ahead for his personal use. His attendants numbered quite a few. One might imagine the thoughts of the innkeeper's wife when seeing such illustrious guests. Great must have been her relief in hearing Washington reply 'Mush and milk' when asked what he wanted for supper."

There are few people, indeed, who are not familiar with the famous Dagwood sandwiches (of the comic strip "Blondie") of cold ham, or beef, crisp bacon, cheese, sardines, sliced tomatoes. (Please Turn to Page Two)

## CITIZEN GIVES \$1,000 FOR REST ROOM IN TOWN; WOMEN TO HELP

Representatives of 17 Gettysburg women's organizations met Friday evening at the fire engine house to establish an advisory committee for borough officials.

According to the plans outlined the group will act unofficially to bring the women's viewpoint into the borough's government and aid in developing a "better, cleaner and more beautiful Gettysburg."

Called at the request of Burgess C. A. Heiges, the group will act to stimulate women of the community into thinking about the town, to make suggestions to the borough concerning needed improvements in the borough and to help local officials carry out programs for the town's betterment.

Mrs. Robert Fortenbaugh, West Broadway, a representative from the American Association of University Women, was elected president. Mrs. Floyd King, of the Business and Professional Women's club, was elected secretary. No official name was selected.

### \$1,000 For Rest Room

A study of the membership of the various organizations represented showed that 2,100 women are listed as members. While the total number of individual women represented by the groups is not that large, for many women belong to two or three of the groups, it was stated that probably the majority of the women of the town are represented by the advisory committee.

The group started off with a \$1,000 donation toward its first objective—the establishment of a public rest room in center square.

Burgess Heiges suggested the rest room as a possible first objective for the town-wide organization and then announced that a "public spirited citizen" has made a donation of the \$1,000 for such a convenience.

### Many Favor Project

He said that he had contacted officials of various organizations in town and that they had told him they believed their groups would contribute liberally toward such a project. In addition, he said, a drive to raise funds for such a project "should provide sufficient funds to raise the remainder of the needed amount."

Some income could be derived from a public rest room through rental of a barber shop and a beauty shop in connection with the project. Other cities, the Burgess said, have such facilities and derive some revenue from such rentals.

He also announced that he is making a survey in other communities of the cost of placing such a convenience in the town's square.

The representatives present Friday night are scheduled to report to their organizations the program outlined and are also to ask their groups for suggestions to be presented at the next meeting to be held March 19 at 7:30 o'clock in the fire engine house.

### Eliminate Mosquitoes

Discussion among the representatives Friday disclosed them to be interested in a number of projects.

One suggested having several policemen on the square on Saturday nights to direct traffic, pointing out that "people have little chance to get across the street, particularly Baltimore street." The question of additional traffic control lights, at Chambersburg and Washington, York and Stratton and Baltimore and High streets was raised. Other suggestions made by the women included better enforcement of speed limits, extermination of starlings, placing of trash cans on center square, and mosquito eradication.

### Await State Survey

In regard to policemen on the square Saturday night the Burgess pointed out that only two men are on duty at that time and one must remain at the police office. The town has asked for additional traffic lights, but is awaiting a survey (Please Turn to Page Two)

## BYRD ADVISES DIXIE REBS TO 'HOLD YOUR FIRE'

Washington, Feb. 21 (AP)—Senator Byrd of Virginia gave the Democratic party's Dixie rebels this advice today:

"Hold your fire—but keep your powder dry."

Byrd told a reporter he wants the south to be sure where it is going before it cuts long-standing political ties in the argument over President Truman's civil rights proposals.

"We must make a calm, deliberate decision on the basis of events as they happen and then be prepared to go through with it to the end," he said.

Byrd told a party gathering at Richmond, Va., last night that the south won't stand for laws setting up a fair employment practices (no race or color line) commission, making lynching a federal offense and banning poll taxes and race separation.

### Meet On Monday

But he added that it would be time enough to decide what to do if southerners should lose their fight against enactment of such legislation by Congress.

Several House members from 11 southern states have adopted a resolution condemning the President's program. They will confer with five southern governors here Monday.

The five are Governors Laney of Arkansas, Lane of Maryland, Thurmond of South Carolina, Jester of Texas and Tuck of Virginia. They will meet later Monday with Senator McGrath of Rhode Island, Democratic national chairman.

The southern governors conference on Feb. 8 gave the national Democratic headquarters 40 days to toss out the civil rights program.

## MACARTHUR TOO BUSY TO RETURN

Washington, Feb. 21 (AP)—The House Foreign Affairs Committee had a touchy political decision lifted right out of its hands today by Gen. Douglas MacArthur.

The general's name got tangled up in the committee's aid-to-China discussions yesterday when some members suggested inviting him to Washington to testify on Far Eastern problems.

That started an argument, Congressmen opposing the move said it could be used as an attempt to boom MacArthur for the GOP Presidential nomination.

But others insisted that MacArthur should be asked home from Japan to give valuable advice on how to help China overcome its native Communist armies.

The general settled the whole problem himself. He said he is too busy to make the trip.

"While I deeply appreciate the confidence reflected in the suggestion I return to the United States to state my views to the House Foreign Affairs Committee on the China relief plan," he said in a Tokyo statement, "I hope the committee will not further the idea."

"The present Japanese political situation involving an imminent change of government and the heavy pressure of my duties render it impracticable for me to leave my post here at the present time."

## DUFF CENSURES MAJOR PARTIES

Philadelphia, Feb. 20 (AP)—Gov. James H. Duff says widespread "uncertainty, uncertainty and discontent" has arisen from the inadequacy of both the Democratic and Republican leadership of the nation.

The Republican Governor censured both parties last night in a speech before a group of University of Pennsylvania alumni at the Sphinx Senior society's midwinter dinner.

An indefinable feeling of unrest is mounting throughout Pennsylvania and every other state he has visited, Governor Duff said, this, he added, is true "not only in the great cities, but also in the country."

"In my judgment," the Governor said, "neither of the great political parties in America today is furnishing the kind of leadership necessary in the great world crisis facing us."

"Our generation is making a tremendous material contribution to the welfare of the world, but that alone is not enough to meet the challenge."

## Replevin Action Is Instituted Here

The remainder, which the complaint lists as \$7,000, was not paid, according to the writ, which also states that on February 13 the Weiss Brothers company attempted to remove the bar and equipment but was not permitted to do so.

## TRUMAN SPEAKS IN PUERTO RICO

San Juan, Puerto Rico, Feb. 21 (AP)—President Truman told the people of Puerto Rico today that the appointment of an island-born governor was just a step toward an "increasing measure of self-government."

He greeted Gov. Jesus T. Pinero, his own appointee, and others gathered at San Juan's Island Grande airport in this fashion:

"Freedom is a word which is found in every language. Equality means more than mere political emancipation. I have said to the Congress several times—and I repeat it here—that the Puerto Rican people should have the right to determine for themselves Puerto Rico's political relationship to the United States."

The President's speech was prepared for delivery to a committee headed by Governor Pinero, gathered to welcome the fourth United States presidential visitor since it became an American possession in 1898.

He described the relationship between the United States and Puerto Rico as an example of "The Democratic way of cooperation between friendly people."

"It represents," he said, "What the American people are trying to encourage in the world at large."

A full schedule was arranged for President Truman, from the moment of his arrival here in the "Sacred Cow" from Key West, Fla.

TEN YEARS AGO

Eden, Opposed to Dictators, Quits

Cabinet, London, Feb. 21 (AP)—Anthony Eden told a packed, breathless House of Commons today he had resigned as foreign secretary rather than deal with Italy in the face of Premier Mussolini's "rife, hostile propaganda" against Britain and the Duce's "glorification of victories in Spain."

"Agreements that are worth while are never made on the basis of threats," he cried.

Hitler Demands Return of German Colonies, Berlin, Feb. 21 (AP)—Chancellor Adolf Hitler gave Europe's uneasy capitals no hint today of his next move as leader of a re-arming Germany he declared was "entitled to equal rights" with other powers.

His momentous Reichstag speech Sunday demanding return of colonies Germany held before the world war and threatening possible armed force to protect German minorities on the Reich's borders failed to give the answer.

Anxiety grew in Prague, where Hitler's indirect reference to German minorities in Czechoslovakia was resented as challenging the sovereignty of that state, the home of some 3,000,000 pro-Nazi Germans. In his three-hour Reichstag speech, Der Fuehrer touched pointedly on most phases of the Reich's foreign policy.

Martin — Neiderer: William A. Martin, son of Paul A. Martin and Mary Louise Martin, of Gettysburg, and Miss Louise Marie Neiderer, daughter of the late Robert and Rose Keffler Neiderer, McSherrystown, were united in marriage by the Rev. Leonard J. Rancillo in the rectory of St. Mary's Catholic church, McSherrystown, Saturday afternoon.

Mr. Martin is employed as a civil engineer. The couple will reside at 30 East Lincoln avenue.

Ernst—Weaver: Miss Alma Louise Weaver, Littlestown, and George E. Ernst, Hanover, were united in marriage Tuesday morning, in St. Aloysius Catholic church, Littlestown, at a nuptial mass. The single ring ceremony was performed at 7:30 o'clock by the Rev. J. H. Melchior. The bride was attended by Miss Anna Weaver. The best man was John Ernst, Hanover.

Nine Companies Fight \$120,000 McSherrystown Catholic H. S. Fire Four Hours: Fire that started in the basement of the structure completely destroyed St. Mary's Central Catholic high school in McSherrystown early Wednesday morning with a loss estimated between \$110,000 and \$120,000.

Nine fire companies with 13 pieces of apparatus from nearby York and Adams county communities battled the blaze for more than four hours before it was brought under control about 5:30 o'clock.

Three pieces of apparatus of the Gettysburg fire company were taken to McSherrystown by more than a score of local firemen.

Mrs. Dickson Breaks Two Bones In Arm: Mrs. J. McGee Dickson, West Broadway, suffered a fracture of two bones in her right arm at the elbow when she slipped on the hardwood floor at her home Thursday afternoon while entertaining members of a bridge club.

C. A. Bixler Accepts Federal Housing Post: C. A. Bixler, president of the Gettysburg Chamber of Commerce, has telegraphed Stewart McDonald, federal housing administrator at Washington, D. C., announcing that he will accept McDonald's invitation to head the federal housing program to be established in Adams county.

## Today's Talk

By GEORGE MATTHEW ADAMS

THE PASSION FOR POSSESSION

To allow one's passion for possession to run wild is one of the most ruinous of conditions. To have a passion for truth, for beauty, for friendship, for the alleviation of wrong or suffering is a contributor to happiness—happiness far beyond all imagined gain in the possession of material things.

Walking through the National Gallery of Art, at Washington, D. C., recently, I was for a few hours in possession of millions of material wealth, as men measure it, but that could not compensate for the wealth of beauty and appreciation of genuine inner love—that I took away with me, after those hours of spiritual enrichment, among many of the great masterpieces of the world.

We are all of us owners of far more than we ever realize. There is an inbred thirst and hunger for spiritual values in us all. We may get its appeasement in the glory of a morning sunrise, in the magic melody of a song or echoing tune, or we can feel its healing in the scent of a rose. This divine ownership—the purest passion possible to anyone.

Material possessions pass so quickly. And their lustre fades, often before we take note. But there is an eternity to all appreciation and love for the artistic and beautiful which we store in our hearts. William Blake spoke of poetry, painting and music as the "three powers in man of conversing with Paradise."

The most precious of our earthly so-called possessions are merely loans. If we love their spiritual values sufficiently, then it is that they become cumulative and significant through their influence upon our lives, and through the influence that we in turn radiate. Only thus do our possessions become actual lights in the world.

The earlier we get rid of our passion for mere possession, the happier we are sure to be. Before his death, Andrew Carnegie looked upon his wealth as mere possession, and so determined to dispense with it by establishing libraries throughout the land. No one can measure the good that these libraries have done, or will do. We are now all thinking of the late Mahatma Gandhi, the Indian leader. He had no possessions. He gave himself to the world, and the influence of his life will never end.

## Just Folks

By EDGAR A. GUEST  
The Poet of the People

LINES TO AN ANGRY DAME  
While driving home the other day  
A woman in ill-temper passed;  
What riled her so I couldn't say,  
But oh, the angry looks she cast!

I knew not what had taken place,  
Nor why to rage at me she chose;  
But plainly stamped upon her face  
Were evil words no lady knows.

Were not made shatter-proof the glass  
Through which the names she  
called me flew,  
It would have been a broken mass,  
And I had been heartbroken too.

Oh, lady, could yourself you see  
With racing tongue and wagging jaw,  
Never would such profanity  
Flow from your mug as that I saw.

REG. U. S. PAT. OFF.  
BY FREDERICK C. RUSSELL  
Member S. A. E.

Many a motorist is broke simply because his charging rate is too high.

**This Way Or None**  
Sequence is one of the most important points in any kind of mechanical work on the car, yet because it is so often overlooked far too many jobs turn out badly. Perhaps the most common error is the way so many motorists pull down cylinder head bolts in the wrong order, thereby forcing the head gasket to buckle or start a leak. I recently heard of a case, where an owner reversed the thrust plate behind the camshaft sprocket.

Installing an oil seal at the transmission pinion which drives the speedometer cable is another instance of the need for strict attention to sequence. The seal, after being soaked in oil, must be inserted in the speedometer drive sleeve so its smooth side is toward the transmission. Then the sleeve must be inserted over the pinion. When the sleeve is tightened, the seal is properly compressed.

**For Future Reference**  
If you are contemplating a motor job or if you are planning to raise the engine in order to service the transmission be sure to consider the need for protecting the radiator. A very effective way to do this is to put a piece of sheet metal between the radiator core and the engine when moving the latter. This will prevent damaging the core.

**Music Hath Profit**  
My interest in reading "Menagerie in F Sharp," that refreshing book about the music world by H. W. Heinsheimer, was purely in deference to my avocation, so naturally I never suspected that it could have any thought that I could pass along to motorists. But that chapter titled "Bus Stop in Waco" certainly carries a useful tip for the motorist. In case you haven't read this fascinating book "Waco, Texas," was the place where Max Reiter finally found someone to finance a local orchestra similar to those he had conducted in Germany and Italy before the war. Reiter had pretty well covered the country with letters of introduction to the best people from some of the biggest shots in New York. It was a most discouraging trek, but he went ahead on the theory that somewhere he would find what he needed.

And what has this to do with motoring? Well, just bear it in mind if you have an odd trouble with your car. Stop at every official service station for your make of car when you are traveling. You never can tell when you'll find a mechanic or a service manager who knows the answer.

**Mechanic Joe Speaking:**  
"One thing I learned as a young fellow in this business is not to pin too much faith in logic. You can reason some things out to a queen's taste and yet be way off the track. Take, for instance, a recent case of overheating. When the owner was outlining his grief to me, he said he knew the water pump was working because it is driven from the same belt that drives the fan and the generator on his car. That seemed logical enough, but experience has taught us to be suspicious of our reasoning. I've seen cases like this where the impeller of the pump was sheared off. To look at things externally, you'd think everything was in order but the pump was just as dead as it would be if the belt were broken."

**Try This Next Time**  
When I leave my car parked in a freezing rain, I now put a large piece of cardboard over the driving window as well as over the windshield. Twice this year I have been caught with the window so frozen that I could not lower it. This made driving especially difficult since I could not signal and could not look out to see the situation behind. Fold the top edge of the cardboard over the glass and then tighten the window. This will hold it in place. There should be enough cardboard to cover the window sill so that ice cannot form along the lower edge of the glass.

**How To Pre-Select**  
One thing the driver of a conventional transmission still can do is to pre-select gears. And this is extremely modern, too. By pre-selecting second gear, for instance, he saves time when the shift is required and gives the engine the benefit of more prompt action. Here is a quick instance.

The driver is approaching a situation where he suspects that after a slow-down he will need second gear for a quick pick-up. He then depresses the clutch pedal, shifts from high to second, but continues to hold the pedal to the floor. The car coasts along, losing speed while approaching the questionable situation. If the

driver finds that he need not stop but that he can go forward, he has merely to speed up the engine as he lets the clutch pedal come up. The gears are in second and all ready for the desired speed spurt.

**Looking Both Ways**  
Rear-window wipers, too widely regarded as something you need to have hand built, are in regular production and cost less than a lot of the frills and furbelows which adorn the modern car. These wipers are electric, thus requiring a minimum of installation work. If the rear window of your car has a curved contour, don't think a wiper wouldn't operate effectively. The blade of this special wiper is so designed that it follows the contour closely, doing an excellent job of keeping the rear glass clear of raindrops and snow.

**Motorists Tell Me**  
Recently when his car developed a violent case of overheating, one of my readers stopped at a filling station and had them pour in some alcohol. The stuff flashed, setting fire to the contents of the measuring can. The owner figured that alcohol would be less likely to crack the motor block than if he used water. You have probably guessed that he then decided to take his time about refilling the cooling system.

**Just For The Record**  
Fifteen makes of American passenger cars now have engines with one hundred or more horsepower. A mixture of No. 10 motor oil and ordinary baking soda, whipped into a paste, will make an excellent protection smear for battery contacts that tend to corrode. Squeakless fan belts are the latest, featuring 45 degree angularity of the edges. If the pressure cap on the radiator of your car is set to withstand 4½ pounds pressure before opening, it will permit raising the boiling point of the coolant about 12 degrees Fahrenheit.

**What's Your Trouble?**  
Q. Is it possible for an engine to run too hot and yet not be able to get much heat from a hot water heater? I seemed to have had that experience recently, but friends tell me it could not be. H. M.

A. I have seen his happen. If the water level gets too low, the engine will run hot but the under-dash heater won't have enough water to operate efficiently. Hot air may get trapped in the heater but any steam in it will work out.

Q. I am having trouble keeping the valves in condition. The valve job I had done in the summer has already gone bad. Tappets have enough clearance and I have used valve oils in an effort to help the situation. A vacuum test shows that there is loss of compression around at least two exhaust valves. J. B. D.

A. The water distribution tube of this engine should be replaced. It can be withdrawn at the front end of the engine and a new one installed. This tube provides a means of squirting water directly at those spots of the block where the valves seat.

Q. There is a pronounced skip in the engine of my car when I am accelerating around 20 miles an hour. Ignition has been carefully checked, even to replacing distributor, coil, points and plugs. The carburetor has been replaced. Can you help? Wm. L. L.

A. Check for a worn distributor cam, camshaft lobes or tappets. A

**TWO BURIED IN RUBBLE OF FIRES**

Pittsburgh, Feb. 21 (AP)—A large grocery warehouse and a downtown business building burned today in two spectacular fires.

Two persons were reported buried in the rubble of the five-story building, which collapsed in the early morning hours. Damage in the two fires was estimated at about \$350,000.

Firemen continued to fight both blazes as office workers filed past en route to work in freezing weather. Burned was the 60-year-old Jackson building, Sixth street and Penn avenue, and an A. and P. warehouse at Lynn Way and Dallas avenue, in the Homewood section.

One fireman was injured as the walls of the Jackson building caved in. He was struck on the arm by a brick.

Police sought a missing fireman and a woman cashier of the Sun Drug company both reported to have disappeared after the start of the fire.

Crowds collected on nearby streets in sub-freezing weather. Street car and auto traffic in the area was brought to a virtual standstill. Trolleys on nearby Penn avenue were lined up, one behind another for six blocks.

## WON'T APPEAL U.S. ORDER IN TINSTMAN CASE

Harrisburg, Feb. 21 (AP)—The Commonwealth decided against an appeal today from the U. S. Civil Service commission ruling that Carl C. Tinstman, deputy secretary of Forests and Waters, violated the Hatch Act in 1944.

The commission held last month that Tinstman should be removed from office and be barred from holding a state position for a year and a half. Failure to dismiss the official, a commission spokesman said, might mean the loss of \$12,000 or double his salary in 1944 in federal grants to the state.

Attorney General T. McKeen Chidsey told a reporter "it has been decided there will be no appeal." The commission handed down its decision late in January, giving the state 30 days in which to make an appeal to the U. S. district court.

**No Comment From Duff**  
The Governor's office said, there has been no change in Tinstman status. Gov. James H. Duff has never commented on the case other than to say he had not studied the decision.

The commission found Tinstman violated the Hatch Act by circulating copies of a letter and other material "in opposition to the candidacy of President Franklin D. Roosevelt, nominee for re-election as President."

The decision said Tinstman, one-time district commander of the American Legion, became subject to the act because Pennsylvania in 1944 received \$3,388,230 in federal funds for department of health activities.

Tinstman and the state contended the state official was innocent because, they said, he had not been shown to have taken part in a political campaign and that his party affiliation had not been shown.

## NO SELECTION FOR TREASURER

Washington, Feb. 21 (AP)—State Treasurer Ramsey S. Black today had the endorsement of Pennsylvania Democratic leaders as the party's nominee for auditor general.

Selection of a nominee for state treasurer, however, has been postponed. State Chairman J. Warren Mickle said after a meeting Thursday night. Another meeting will be held in Harrisburg, March 1.

Mickle listed the following as definitely in the running: Frank A. Boylan, executive assistant to Auditor General G. Harold Wagner; State Senator William J. Lane of Washington county and Joseph Lawler of Lackawanna county, third assistant postmaster general.

Absence of several party leaders was given by Mickle as the reason for the postponement of the selection of candidate for state treasurer.

He listed among those unable to attend: John Kane, chairman of the Allegheny county commissioners; Wagner, John S. Rice, the party's candidate for governor in 1946; Hiram G. Andrews, minority leader of the state house and John H. Dent, minority leader of the state senate.

Pennsylvania state Republicans reached an agreement some time ago on their nominees for the two offices. They selected Senator Waldon B. Heyburn of Delaware county for auditor general and Charlie R. Barber, secretary of welfare, for state treasurer.

## COMMUNISTS TREAD LIGHTLY IN ITALY, FRANCE

By DEWITT MACKENZIE

(AP Foreign Affairs Analyst)

Moscow seems to have soft-pedaled temporarily the violent Red tactics aimed at establishment of Communist governments in Italy and France.

The general strategy of course remains the same. This is to Sovietize these two strategically important countries whose control would bring Russia immeasurably nearer her goal of dominating western as well as eastern Europe.

For some weeks things have been relatively quiet in France after a long period of violence and disorganization due to Bolshevik strong-arm methods. Now we have the usual development of a peace truce in Italy among the warring political parties, pending the election for the republic's first Parliament on April 18. This pact provides for a campaign "without hate" and for abstention from the use of force, which caused more than a score of deaths and much property destruction during the latter part of 1947.

**Course of Least Resistance**

The most unusual—and consequently significant—aspect of the situation is that the truce (for what it is worth) was proposed by Umberto Terracini, Communist president of the recently adjourned constituent assembly. The fact that it is a Communist move emphasizes the likelihood that it represents a Moscow order to tread lightly for the moment.

The meaning of this, in my view, is that the Communists are going to pursue the course of least resistance pending political developments in Italy and France. They are gambling that a swing of fortune in elections may give them the control they want without their having to employ force. That would endow them with a beneficence which would be calculated to win friends in other western European countries.

Then there's another point to which I called attention in yesterday's column. Bolshevik tactics which were possible in countries of eastern Europe, under Russian military occupation, can't be used in western Europe where the Reds have no armed forces. In the west, for example, there could be no such occurrence as was testified to this week before the Un-American activities subcommittee of the House of Representatives in Washington by Georgi M. Dimitroff, an anti-Communist refugee from Bulgaria. He declared that after the Bolsheviks seized control of the country they killed without trial more than 50,000 natives. A thing like that could only be done with the backing of an army.

## MURRAY PLEADS "NOT GUILTY"

Washington, Feb. 21 (AP)—CIO President Philip Murray Friday pleaded innocent to charges of violating the Taft-Hartley act's ban against union political expenditures.

Murray's attorneys then moved that the charges be dismissed. They argued that the ban violates freedom of the press and is unconstitutional.

Judge Alexander Holtzoff set February 27 as a tentative date for argument of the motion in U. S. District Court. He set March 22 as the date for Murray's trial in case the charges are not dismissed.

Murray also entered an innocent plea for the CIO itself. The CIO was indicted with Murray.

The indictment charges that the CIO News, a union newspaper financed with union funds, carried an endorsement written by Murray for a Democratic Congressional candidate in Maryland last July.

Murray's attorneys claimed in their motion to dismiss the indictment that the ban against unions making political expenditures certainly can not bar unions from tak-

## Senators Predict Stopgap Rent Bill

Washington, Feb. 21 (AP)—Senators Flanders (R-Vt.) and Bricker (R-Ohio) predicted today the Senate will vote for a one-month stopgap extension of the present rent control law.

They made this forecast as the Senate called up for debate a bill to continue controls 14 months beyond February 29 with some changes.

The House Banking committee already has approved extending the existing law through March. The House itself will vote on this measure next week.

Flanders and Bricker are members of the Senate Banking committee which wrote the 14-month bill. Both voted for it, although Bricker says he did so reluctantly.

Murray put up \$1,000 bond guaranteeing his appearance for trial. He was fingerprinted in the routine way required of all defendants in criminal proceedings. The political spending ban provides a penalty up to \$5,000 for any violating organization and up to \$1,000 and a year in jail for any union officer guilty of violation.

## Your Choice — Regular Vigoro or Vigoro

For  
Commercial  
Growers

Regular VIGORO supplies, in scientifically balanced proportions, the vital food elements your trees need for complete development — for profitable production of high quality fruit.

VIGORO FOR COMMERCIAL GROWERS contains the same vital food elements as REGULAR Vigoro, plus MORE NITROGEN and MORE POTASH. This product is the result of extensive study and research and is being offered to orchardists who need heavy applications of nitrogen. The potash content has also been correspondingly increased, along with nitrogen, to promote a healthy, sturdy new growth and good fruit.

(Note: The deadline for everyone — for filing a return and paying any tax owed on 1942 income — is March 15).  
The 12 community property states are:  
Arizona, California, Idaho, Louisiana, Nevada, New Mexico, Texas, Washington, Oklahoma, Michigan, Nebraska, Oregon. The territory of Hawaii also has a community property law.  
Here's how the community property law works in paying federal income tax:  
**How Law Works**  
Take a couple with no children and no dependents. The husband worked in 1942. The wife didn't. The only income was the husband's salary.  
Say that income was \$100,000 after deductions.  
This is what would happen in any one of the 36 states which don't have a community property law.  
The husband had to claim all that \$100,000 income. The wife couldn't claim any.  
The tax — it was tax on the full \$100,000 — was \$63,128.  
Now take that same couple in any one of the 12 community property

NINE AIRLINES EXTEND ROUTES

Washington, Feb. 21 (AP)—The Civil Aeronautics Board has awarded new routes to nine airlines, six of which include cities in Pennsylvania and Delaware.  
The major carriers receiving routes in the board's action yesterday are American, Eastern, National, Pennsylvania Central, Trans-World and United Airlines. "Slick" Goodlin And Model Will Be Wed

Los Angeles, Feb. 21 (AP)—Chalmers (Slick) Goodlin, one of the nation's best known test pilots from New Alexandria, Pa., and Jacquelyn Waldron, Hollywood model, were to be married today.  
The 25-year old pilot and the 23-year old Miss Waldron obtained a marriage license yesterday. Miss Waldron, daughter of John F. McCabe, New York real estate man, gave her legal name as Jacqueline McCabe.  
Goodlin, member of the Canadian and the U. S. Navy air forces during the war, flew test runs in the XS-1 rocket fighter at a reported speed of 650 miles an hour. The army later said the same plane had been flown faster than the speed of sound.

Although the husband earned the \$100,000, the wife claims half of it.  
So she files a return, reporting she had \$50,000 income. The husband files a return, reporting he had \$50,000 instead of \$100,000.  
Her \$50,000 is taxed. So is his \$50,000. But the tax on each person's separate \$50,000 is lower than on a single income of \$100,000.  
The reason: The higher your individual income, the higher the tax.  
**Saving Is \$12,854**  
So in this case the tax on the husband's \$50,000 is \$25,137. The tax on the wife's \$50,000 also is \$25,137. Thus their total tax on that original \$100,000 income is \$50,274.  
And that's \$12,854 less than the man with \$100,000 paid in the non-community property state. He couldn't divide income with his wife. The tax on his \$100,000, as noted, was \$63,128.  
In Congress the House has passed a bill to make all 48 states community property states when it comes to paying income taxes.  
The Senate is expected to pass it, too. If President Truman vetoes it and both Houses can re-pass it over the veto, the bill becomes law.
